

Junior Piping Designer

Bluestar Engineering Ltd. is a Calgary based EPCM company specializing in small to medium size oil and gas projects. We are a group of professionals who form a fully integrated multi-disciplinary organization backed by many years of experience.

We are currently seeking a Junior Piping Designer to join our team.

Duties and Responsibilities:

- Operate AutoCAD and CADWorx 3D modelling software.
- Knowledge of upstream oil and gas production projects - single/multiwell batteries, test satellites, pipeline gathering systems, oil storage batteries, etc.
- Produce plot plans, PFD's, P&ID'S, piping plans and sections, piping isometrics, piping bills of materials.
- Existing facility as-built model creation.
- Modify and revise design documents as required.

Requirements:

- Post-secondary diploma in Process Piping Design or equivalent program.
- 0 – 3 years of relevant experience. EPCM experience is preferred.
- Personable and able to work with a team.
- Ability to adjust to change and multitask within a busy environment.
- Working knowledge of applicable industry codes, standards, practices, and procedures involved with the piping discipline.
- Effective verbal and written communication skills.

Please be advised that Bluestar Engineering Ltd. is an equal opportunity employer and only applicants who are selected, will be contacted to advance in the application process
