

Piping Drafter/Designer

Bluestar Engineering Ltd. is a Calgary based EPCM company specializing in small to medium size oil and gas projects. We are a group of professionals who form a fully integrated multi-disciplinary organization backed by many years of experience.

We are currently seeking an Intermediate Piping Drafter/Designer to join our team.

Duties and Responsibilities:

- Operate AutoCAD and CADWorx 3D modelling software.
- Knowledge of upstream oil and gas production projects - single/multiwell batteries, test satellites, pipeline gathering systems, oil storage batteries, etc.
- Produce plot plans, PFD's, P&ID'S, piping plans and sections, piping isometrics, piping bills of materials.
- Existing facility as-built model creation.
- Modify and revise design documents as required.
- Managing multiple projects of varying size and complexity at the same time.
- Ensure compliance with approved design standards and specifications to provide quality designs.

Requirements:

- Post-secondary diploma in Process Piping Drafting.
- 3 – 6 years of relevant experience. EPCM experience is preferred.
- Personable and able to work with a team.
- Must be able to take direction and ask questions when necessary.
- Ability to adjust to change and multitask within a busy environment.
- Working knowledge of applicable industry codes, standards, practices, and procedures involved with the piping discipline.
- Effective verbal and written communication skills.

Please be advised that Bluestar Engineering Ltd. is an equal opportunity employer and only applicants who are selected, will be contacted for an interview.
